

Scrum Agenda
9/28/2023
Meeting Time: **10:45**

Team Members:

Brody
Carson
Ryan
Emmanuel
Brett

Beginning of Meeting:

- Address any concerns and questions we have before beginning GE03
- Share any helpful resources we have found for the GE

During Meeting:

- Work through the Guided Exploration, making sure to stop at each step to make sure each member is following at the same rate
- Work together to solve any problems that arise

Goal for Meeting:

- Considering this is a fairly short GE, we should aim to complete all practical steps that involve coding during the span of the meeting. We can ask questions about the questions in the GE we are unsure about, but we should be doing them mostly on our own, as they are more for our understanding.
